

### ❖ What is Strategies for Refugees?

- 'Strategies for Refugees' is an Erasmus Plus KA2 Project, focusing on the state of refugees in European countries
- Our aim is to find out and exchange information and good practices between several European countries so that we can help all refugees settle comfortably in their new surroundings
- The project has eight partner organisations which belong to the United Kingdom, Spain, Italy, Greece, Turkey, Poland and Romania. All these partners are sharing information with each other on refugees' integration in their countries on the platform of this project so that we can gather and promote the best ways in which refugees can be helped in any country around the world

### ❖ Through our efforts, we wish to achieve the following:

- ✓ Encourage refugees and their communities to accept each other with open arms and hearts
- ✓ Enable the refugees to be confident in their new surroundings through communication
- ✓ Support the refugees by lending them a helping hand and informing them about services and opportunities available to them around their communities
- ✓ Integrate the refugees in their new communities by making them aware of ways in which they can be more actively involved in their communities
- ✓ Share all this information with all the organisations which work with refugees around Europe and beyond, so that we may be able to make some positive contribution to improving the lives of refugees

*You can find out more about this project on our website*
